Applied artificial intelligence

Vol. 7 No. 2

Articles

Constraint mechanisms in automated knowledge generation

M. Towhidnejad, H. R. Myler and A. J. Gonzalez
Natural language generation and hypertext access

Giuseppe Carenini, Fabio Pianesi, Marco Ponzi and Oliviero Stock

Detecting device failures through scale-driven object matching

Juan E. Vargas and John R. Bourne

Integrated intelligent environment for gear manufacturing system

Jingzhong Cha, Ming Rao and Zhenying Zhao

The interpretation and application of belief functions
Richard E. Neapolitan

Applied artificial intelligence calendar

Vol. 7 No. 3

Articles

A knowledge base system for predicting merchandise investment returns

Charles V. Trappey, Amy J. C. Trappey and Richard Feinberg

A semiquantitative approach to reasoning in probabilistic networks

Simon Parsons and Mirko Dohnal

Formal specifications and medical decision support systems

Paul Krause and Andrzej Glowinski

Semantic analysis of economic surveys

Jean-Christophe Planès and Philippe Trigano

The utility of background knowledge in learning medical diagnostic rules

Nada Lavrač, Sašo Džeroski, Vladimir Pirnat and Viljem Križman

Applied artificial intelligence calendar

Books received

Artificial intelligence review

Vol. 7 No. 2
