

Referees for *The Knowledge Engineering Review* Papers—Volume 8

John Fox, Imperial Cancer Research Fund, UK.
Les Gasser, University of Southern California, USA.
Thomas Green, MRC Applied Psychology Unit, UK.
Sture Hägglund, Linköping University, Sweden.
Jun Huang, Imperial Cancer Research Fund.
John Kingston, University of Edinburgh AI Applications Institute, UK.
Paul Krause, Imperial Cancer Research Fund, UK.
Rainer Manthey, University of Bonn, Germany.
Mark Musen, Stanford University School of Medicine, USA.
Barbara Wasson, NORUT Information Technology AS, Norway.
Michael Woolridge, Manchester Metropolitan University, UK.

Conference Announcement

Artificial Intelligence in Design '94

Third International Conference on Artificial Intelligence in Design

15–18 August 1994 (Revised Date)

Swiss Federal Institute of Technology Lausanne, Switzerland

Design is becoming an important research topic in engineering and architecture. It is the key to economic competitiveness and the fundamental precursor to manufacturing. However, our understanding of design as a process and our ability to model it are still very limited. This conference series aims to provide an international forum for the presentation and discussion of the state-of-the-art and cutting edge research and developments in artificial intelligence in design. The first conference in the series was held in Edinburgh, Scotland in June 1991, the second was held in Pittsburgh, USA in June 1992. The third and subsequent conferences will be held bi-annually.

Original papers are invited on all aspects of artificial intelligence in design. Papers will be rigorously refereed by an international board of reviewers and accepted papers will be published as a book.

Full papers due—5 copies
Notification of acceptances
Revised, formatted papers due

1 December 1993
31 January 1994
11 March 1994
