Special Issue on GDSS edited by J. F. Nunamaker, Jr

Experience with and future challenges in GDSS:

Preface

J. F. Nunamaker, Jr

The user interface in group decision support systems

P. Gray and L. Olfin

Interaction of task and technology to support large groups

J. Nunamaker, D. Vogel and B. Konsynski

Observation of executives using a computer supported meeting environment

M. Mantei

Negotiation support systems: an overview of design issues and existing software

M. T. Jelassi and A. Foroughi

Experiences at IBM with group support systems: a field study

J. Nunamaker, D. Vogel, A. Heminger, B. Martz, R. Grohowski and C. McGoff

The impact of technical support on groups: an assessment of the empirical research

A. Pinsonneault and K. L. Kraemer

Experiments in group decision making, 3: disinhibition, deindividuation, and group process in pen name and real name computer conferences

S. R. Hiltz, M. Turoff and K. Johnson

Interaction analysis in GDSS research: description of an experience and some recommendations

I. Zigurs

Evaluating group decision support system effectiveness: a performance study on decision conferencing

A. T. McCart and J. Rohrbaugh
